Frameworks: React Js | Next Js | Redux Js | Node Js | NestJs | Express Js | Prisma | Mongoose | Laravel

Database: PostgreSQL | MongoDB | MySQL

Tools: VS Code | Git | Git GitHub | Figma | Postman | Swagger | Docker

PROJECTS

MEDICARE POINT (Medicine Selling Store)

[Client-Site Code](#)

[Server-Site Code](#)

[Live-Site Link](#)

- MEDICARE POINT is a medicine-selling shop where a customer can buy medicine according to their needs. There are three types of users here: customers, pharmacists, and the website admin.
- Here, a user can buy medicine according to their needs and also book appointments in advance for various types of lab tests.
- Here, a pharmacist can register by submitting the required documents and sell the medicine available in their pharmacy. After a customer purchases the medicine, a delivery rider will collect it from the pharmacy and deliver it to the customer.

Technologists: HTML, CSS, Tailwind CSS, JavaScript, React Js, Redux, React Hook Form, React-query, Firebase, Node Js, Express Js, MongoDB.

TICKYTO (Ticket Booking System)

Status: **Completed**

tickyto.com

- A Reliable event ticket booking system with powerful user-friendly tools help consumers and organizers hassle free experience.
- Tickyto simplifies event ticket booking in the digital era. Designed for seamless experiences, it caters to both attendees and organizers.
- Comprehensive organizer tools & volunteer management.
- **For Consumers:** Find & explore upcoming and past events. Instant ticket booking & easy verification. Direct communication with event organizers. Volunteer opportunities in major events.
- **For Organizers:** Effortless event creation with ticket customization. Manage volunteers, tasks, and venue layouts. Flexible payment gateway options. Secure fraud-free ticketing system.

Technologists: HTML, CSS, Tailwind CSS, Typescript, Next Js, NextAuth, JWT - (JSON Web Tokens) React Hook Form, TanStack Query, NestJs, Prisma and PostgreSQL
